DOCTORAL TRAINING

PAPER DEVELOPMENT WORKSHOP FOR MANAGEMENT RESEARCHERS

Course 2022/2023

Course given by **Xosé H. Vázquez**, Universidade de Vigo

Contacto: xhvv@uvigo.gal

The last three sessions on "Qualitative Analysis" will be held in cooperation with Mario Pansera, Oportunius Researcher at Universidade de Vigo (mario.pansera@uvigo.gal)

PROGRAM

Date	Session
February 6th	**Preliminary session**
February 20th	Topic choice
March 6th	Research design
March 21st	Setting the hook
April 4th	Grounding theory
April 11th	Reviewing session **(from 10:00h to 12:00h)**
April 18th	Crafting methods and results
May 2nd	Discussion and conclusions
May 4th	Idiosyncratic traits of inductive studies

Lessons will take from 10.00 to 14.00h

Date	Session
May 8th	Qualitative analysis I - Intro to Social Research Terminology
May 15th	Qualitative analysis II - Problematisation as a source of Research Questions
May 22nd	Qualitative analysis - Case Studies and Grounded Theory

Lessons will take from 10.00 to 12.00h

MODALITY

Virtual (access data will be sent to the registered students before the beginning of this course)

LANGUAGE

The Workshop will be given in **English.**

STUDENT TASKS

Your responsibilities for each session include (1) summarizing required readings, (2) handing in weekly assignments, (3) presenting your own work in class, and (4) participating in class.

Remember this is not a Master course that will help you get a degree. It is a voluntary workshop that is meant to provide support to your research activities. You will harness it fully if you fulfill your assignments.

CLASS DYNAMICS

1. You need to read the required readings for each session.
2. Then, you should take a look at each session's assignment. You will see that I am asking you to follow the insights you have just read in the required readings for either one of these two alternatives: a piece of your work (a paper in your thesis, or your whole thesis if it is of a more conventional-type) or (if you are in a very early stage of your work), choose the best paper you can find on a topic you like and work on it as if it were yours. You will see that even the best papers are not flawless; those flaws are the ones that you need to avoid in order to get your papers published.
3. Once you finish your assignment, you should upload it to MOOVI.
4. Finally, we will meet in class. Firstly, I will synthesize the issue at stake based on the readings I recommended you and on my own experience (e.g., topic choice, research design...), and second, you will present your assignment so that we can discuss it in public.
